EDUCATION

09/2008 – 12/2011 Postdoctoral Fellowship, Psychiatry
University of British Columbia, Department of Psychiatry
Advisor: Dr. Steven Taylor

09/2004 – 09/2008 Ph.D., Psychology
University of British Columbia, Department of Psychology
Advisor: Dr. Peter Graf

09/2002 – 08/2004 M.A., Psychology
University of British Columbia, Department of Psychology
Advisor: Dr. Peter Graf

09/1996 – 05/2001 B.A., Psychology
University of British Columbia

EMPLOYMENT

08/2018 – Present Assistant Professor, Department of Psychology, Washington State University

08/2014 – 07/2018 Clinical Assistant Professor, Department of Psychology, Washington State University

08/2010 – 05/2014 Assistant Professor (Limited-Term), Department of Psychology, Concordia University

05/2013 – 06/2013 Sessional Lecturer, Department of Psychology, University of British Columbia

09/2008 – 12/2011 Postdoctoral Fellow, Department of Psychiatry, University of British Columbia

09/2008 – 08/2010 Curriculum Development Specialist, Department of Psychology, University of British Columbia

01/2007 – 07/2010 Sessional Lecturer, Department of Psychology, University of British Columbia

01/2003 – 12/2006 Lab Instructor, Department of Psychology, University of British Columbia

09/2002 – 12/2006 Teaching Assistant, Department of Psychology, University of British Columbia

09/2005 – 12/2006 Research Assistant, Dr. Hakstian's Industrial Organization Lab, University of British Columbia

09/2002 – 08/2003 Research Assistant, Dr. Graf's Memory & Cognition Lab, University of British Columbia

08/2001 – 08/2002 Research Assistant, Dr. Woodward, Department of Research & Medicine, Riverview Psychiatric Hospital

05/2000 – 05/2002 Research Assistant, Dr. Yuille's Forensic Psychology Lab, University of British Columbia, Mountain Medium Security Prison, Kent Maximum Security Federal Penitentiary

FELLOWSHIPS AND AWARDS

Fellowships

05/2017 – 12/2018	Open Education Research Fellowship, Center for Open Education, University of Minnesota
01/2009 – 12/2011	Postdoctoral Fellowship, Michael Smith Foundation for Health Research
09/2006 – 08/2008	Canadian Graduate Scholarship, Natural Sciences and Engineering Research Council of Canada
05/2006 – 04/2008	Senior Graduate Studentship, Michael Smith Foundation for Health Research
05/2004 – 04/2006	Junior Graduate Studentship, Michael Smith Foundation for Health Research
05/2003 – 04/2005	Post Graduate Scholarship A, Natural Sciences and Engineering Research Council of Canada
09/2002 – 08/2003	Graduate Entrance Scholarship, University of British Columbia
09/2002 – 08/2003	Elizabeth Young Lacey Scholarship in Psychology, University of British Columbia

Awards

04/2022	Award for Excellence in Teaching a Large Class, Washington State University Teaching Academy
04/2020	William F. Mullen Memorial Teaching Award, Washington State University, College of Arts and Sciences
03/2019	Best Professor at WSU, Daily Evergreen's Student Choice Awards
04/2018	Exceptional Usage of Open Educational Resources, Associated Students of Washington State University
03/2018	Best Professor at WSU, Daily Evergreen's Student Choice Awards
03/2017	ADVANCE at WSU External Mentor Award, Washington State University
02/2010	Teaching and Learning Enhancement Fund (Department Award), University of British Columbia
10/2009	Brain Star Award, Canadian Institutes of Health Research
05/2009	Dissertation Award, Canadian Psychological Association
06/2008	Scientific Achievement Award, International Cannabinoid Research Society

Travel Awards

04/2022	Travel Assistance Award, ADVANCE at Washington State University
04/2019	College of Arts and Sciences International Travel Award, Washington State University
03/2019	Travel Assistance Award, ADVANCE at Washington State University
04/2016	Alcohol and Drug Abuse Research Program Travel Award, Washington State University
06/2008	International Cannabinoid Research Society Travel Award

06/2007	International Cannabinoid Research Society Travel Award
02/2007	President's Travel Scholarship in Psychology, University of British Columbia
10/2006	Psychology Graduate Student Travel Award, University of British Columbia
05/2006	Faculty of Graduate Studies Travel Award, University of British Columbia
07/2004	Faculty of Graduate Studies Travel Award, University of British Columbia
03/2004	Psychology Graduate Student Travel Award, University of British Columbia

GRANTS

Funded Grants

Acute Effects of Cannabigerol on Mood, Anxiety, Stress, & Cognition

Funding period: 05/2022 – 06/2024

Total: \$3,000

Type: CReDO Science

Role: PI

Goals: To examine the acute effects of cannabigerol (CBG) on mood, anxiety, stress, and cognition using a double-blind randomized placebo-controlled cross-over trial.

Large-Scale Survey of Psychedelic Users' Experiences with Psychedelics

Funding period: 12/2021 – 12/2023

Total: \$20,000

Type: Huxley Health

Role: PI

Goals: To examine psychedelic users' patterns of use, experiences, and perceived effects of psychedelics.

Lost in the Weeds: Use of Multimodal Measures to Interrogate Daily Stress Rhythms of Cannabis Users

Funding period: 01/2022 – 07/2023

Total: \$30,000

Type: Alcohol & Drug Abuse Research Program Faculty Pilot Grant

Role: PI

Goals: To examine the effects of chronic cannabis use on daily stress rhythms and determine whether alterations in these rhythms predict cannabis users' elevations in depressive symptoms.

Intersections Between Psychological & Physiological Stress & Cannabis Use in Reproductive-Aged Women

Funding period: 01/2022 – 07/2023

Total: \$30,000

Type: Alcohol & Drug Abuse Research Program Faculty Pilot Grant

Role: Co-I

Goals: To assess relationships between psychological stress, cortisol, and reproductive health in women of reproductive age who use and do not use cannabis.

Effects of Chronic Cannabis Use on the Neuroendocrine Stress Response

Funding period: 07/2021 – 06/2023

Total: \$100,000

Type: National Institutes of Drug Abuse (1 R03 DA051740-01-A1)

Role: Co-I

Goals: To examine the effects of chronic cannabis use on the stress response using a translationally relevant rodent model of cannabis self-administration.

Collecting Empirical Data to Provide Quantitative, Objective Framework to Aid in the Interpretation of Alertness Impairments Related to Fatigue, Alcohol, Marijuana, and Opiates

Funding period: 04/2022 – 03/2023

Total: \$122,576

Type: National Safety Council/Pulsar (AWD004118)

Role: Co-I

Goals: To examine combined effects of fatigue and various substances on alertness

Acute Effects of High Potency Cannabis on Everyday Life Cognition

Funding period: 07/2018 – 08/2022

Total: \$25,800

Type: Alcohol & Drug Abuse Research Program Faculty Pilot Grant (133959)

Role: PI

Goals: To examine effects of high potency cannabis flower and concentrates on everyday life cognition.

Acute and Chronic Effects of Cannabis on Cognition in Adult Attention-Deficit/Hyperactivity Disorder

Funding period: 12/2019 – 06/2022 Total: \$4,000
 Type: Alcohol & Drug Abuse Research Program Faculty Pilot Grant (137843) Role: PI
 Goals: To examine the chronic and acute effects of cannabis on cognition in people with ADHD.

Acute and Chronic Effects of Cannabis on Cognition in Adult Attention-Deficit/Hyperactivity Disorder

Funding period: 11/2019 – 06/2021 Total: \$25,000
 Type: Dedicated Marijuana Account Faculty Pilot Grant (137450) Role: PI
 Goals: To examine the chronic and acute effects of cannabis on cognition in people with ADHD.

Chronic Cannabis-Induced Alterations in Stress Reactivity

Funding period: 07/2019 – 12/2020 Total: \$30,000
 Type: Alcohol & Drug Abuse Research Program Faculty Pilot Grant (136020) Role: Co-I
 Goals: To examine effects of chronic cannabis self-administration on the stress response.

Business Idea Creativity and Cannabis Use

Funding period: 05/2018 – 05/2019 Total: \$5,000
 Type: WSU Vancouver Research Mini-Grant Role: Co-I
 Goals: To examine differences in creative business ideation in cannabis users and non-users.

Adopting Open Educational Resources for Psych 333

Funding period: 05/2018 – 08/2018 Total: \$4,500
 Type: WSU Affordable Learning Grant Role: PI
 Goals: This project involved editing and adopting an open textbook for my Abnormal Psychology course.

Adopting Open Educational Resources for Psych 105

Funding period: 05/2018 – 08/2018 Total: \$4,500
 Type: WSU Affordable Learning Grant Role: Co-I
 Goals: This project involved adopting an open textbook for the Department's Introductory Psychology course and studying the effects of that adoption.

Individual Differences in the Influence of Cannabis on Cognition

Funding period: 01/2015 – 06/2018 Total: \$30,000
 Type: Alcohol & Drug Abuse Research Program Faculty Pilot Grant (124744) Role: PI
 Goals: To examine potential moderators (e.g., adolescent onset, aging, sex) of the influence of chronic cannabis use on cognition.

Adopting Open Educational Resources for Psych 312

Funding period: 05/2017 – 08/2017 Total: \$5,000
 Type: WSU Affordable Learning Grant (funded by AOI) Role: PI
 Goals: This project involved creating a new edition of an open textbook for my Research Methods in Psychology course.

Strain and Sex Differences in the Perceived Efficacy of Medical Marijuana

Funding period: 01/2016 – 06/2017 Total: \$14,275
 Type: Dedicated Marijuana Account Faculty Pilot Grant (2938-0422) Role: PI
 Goals: This project focused on examining the efficacy of medical cannabis for various symptoms/conditions as well as strain and sex differences in those perceived effects.

The Influence of Chronic Cannabis Use on Stress Induced Cognitive Inflexibility

Funding period: 01/2016 – 06/2017 Total: \$12,635
 Type: Dedicated Marijuana Account Faculty Pilot Grant (2938-0425) Role: Co-I
 Goals: This project focused on examining the effects of chronic cannabis use on the stress response and cognition.

Did I Remember to Lock the Door? The Role of Memory Distrust in Checking Compulsions

Funding period: 03/2011 – 09/2012

Total: \$9,528

Type: Concordia University Team Seed Grant (VS1109)

Role: PI

Goals: To determine whether experimentally manipulating confidence in prospective memory increases intrusive doubts and compulsions to check.

Under Review

Effects of Chronic Cannabis Use and Acute Stress on Stress Reactivity and Memory

Funding period: 07/2022 – 01/2024

Total: \$30,000

Type: Alcohol & Drug Abuse Research Program Faculty Pilot Grant

Role: PI

Goals: To examine the effects of chronic cannabis use on stress reactivity as well as interactions between cannabis use and acute stress on naturalistic aspects of memory.

Use of Multimodal Measures to Interrogate Daily Stress Rhythms of Cannabis users

Application Date: 10/2021

Requested: \$275,000

Type: National Institutes of Drug Abuse

Role: PI

Status: Impact Score 42

Role: PI

Goals: To examine physiological indicators of stress over a 24-hour period in cannabis users and explore their associations with depression

Unfunded Grants

Weeds: Remote Study of Estradiol, Cannabis, Stress, and Memory in Midlife Women

Application Date: 10/2021

Requested: \$25,000

Type: Women's Health Research Institute at BC Women's

Role: Co-I

Status: Unfunded

Goals: To examine effects of ovarian hormones and CBD on the stress response and memory in midlife women.

Do Ovarian Hormones Modulate Effects of CBD on Stress Response and Memory in Midlife Women?

Application Date: 07/2020

Requested: \$25,000

Type: Women's Health Research Institute at BC Women's

Role: Co-I

Status: Unfunded

Goals: To examine effects of ovarian hormones and CBD on the stress response and memory in midlife women.

Estradiol, Cannabis, Stress, and Memory in Midlife Women

Application Date: 02/2020

Requested: \$200,000

Type: Global Consortium for Reproductive Longevity and Equality

Role: Co-I

Status: Unfunded

Goals: To examine effects of ovarian hormones and CBD on the stress response and memory in midlife women.

Developing a Psychometrically-Sound Measure of Frequency, Age of Onset, Potency, and Quantity of Cannabis Use for Health Researchers

Application Date: 10/2019

Requested: \$100,000

Type: National Institutes of Health (1 R03 DA051750-01)

Role: PI

Status: Not discussed

Goals: To develop, administer and assess the psychometric properties of a cannabis consumption inventory

Developing a Psychometrically-Sound Measure of Frequency, Age of Onset, and Quantity of Cannabis Use for Health Researchers

Application Date: 02/2019

Requested: \$100,00

Type: National Institutes of Health (1 R03 DA050015-01)

Role: PI

Status: Not discussed

Goals: To develop, administer and assess the psychometric properties of a cannabis consumption inventory

Effects of Chronic Cannabis Use on the Neuroendocrine Stress Response

Application Date: 10/2018

Requested: \$100,000

Type: National Institutes of Drug Abuse (1 R03 DA049045-01)

Role: Co-I

Status: Not funded: Impact Score 33

Goals: To examine effects of chronic cannabis use on the stress response using a translationally relevant rodent model of cannabis self-administration.

Race to Remember: The Effects of Exercise on Prospective Memory

Application Date: 02/2015

Requested: \$30,000

Type: WSU New Faculty Seed Grant

Role: PI

Status: Not funded

Goals: To examine effects of acute bouts of aerobic and resistance exercise on prospective memory.

TEACHING**Graduate Courses**

Experimental Designs, T-Tests, and ANOVA (Psych 511)

Washington State University (4 Sections, Typical Enrollment = 20)

Non-Experimental Designs, Correlation, and Regression (Psych 512)

Washington State University (6 Sections, Typical Enrollment = 20)

Undergraduate Courses***Abnormal Psychology (Psych 333)***

Washington State University (15 Sections, Typical Enrollment = 240)

Experimental Methods in Psychology

Washington State University (3 Sections, Typical Enrollment = 100)

Experimental Methods in Psychology

Washington State University Global Campus (3 Sections, Typical Enrollment = 30)

Statistics in Psychology (Psych 311)

Washington State University (2 Sections, Typical Enrollment = 100)

Cognition and Memory (Psych 490)

Washington State University (3 Sections, Typical Enrollment = 170)

Developmental Psychology (Psych 361)

Washington State University (3 Sections, Typical Enrollment = 140)

Self-Control (Psych 328)

Washington State University Global Campus (1 Section, Typical Enrollment = 35)

Research Methods and Design I (Psych 310)

Concordia University (4 Sections, Typical Enrollment = 75)

Statistical Analysis II (Psych 316)

Concordia University (7 Sections, Typical Enrollment = 75)

Fundamentals of Psychopathology (Psych 340)

Concordia University (9 Sections, Typical Enrollment = 65)

Research Methods – Thinking Clearly About Psychology (Psych 217)

University of British Columbia (12 Sections, Typical Enrollment = 100)

Analysis of Behavioural Data (Psych 218)

University of British Columbia (5 Sections, Typical Enrollment = 100)

Behaviour Disorders (Psych 300)

University of British Columbia (5 Sections, Typical Enrollment = 125)

STUDENT SUPERVISION

Graduate Student Supervision***Doctoral Dissertation Chair***

Aria Petrucci – TBD

Amanda Stueber – Effects of chronic and acute cannabis exposure on people with attention-deficit/hyperactivity disorder.

Kyle Schofield – Sexual minorities' cannabis use patterns, motives for use, and associations with mental health (Defended Spring 2022)

Dakota Mauzay – An examination of the acute and long-term influences of cannabis on symptoms of obsessive-compulsive disorder (Defended Spring 2020)

Emily LaFrance – Acute effects of high potency cannabis on everyday life cognition (Defended Spring 2020)

Doctoral Dissertation Co-Chair

Nicholas Glodosky – Chronic effects of cannabis on the stress response: A translational approach

Alexander Spradlin – Examining the stress cannabis link across the stress spectrum (Defended Spring 2017)

Doctoral Dissertation Committee Member

Aaron Bonnette – TBD

Brenna Boyd – Effectiveness of a multi-component brain health intervention.

Callan Lujan – Inflammation and the relationship to post traumatic stress disorder treatment response

Katelyn Brown – Development of a naturalistic planning measure: The overnight trip task. (Defended Spring 2021)

Robert Fellows – Personality, health behaviors, and cognition among midlife and older adults (Defended Spring 2020)

Amy Nusbaum – Rise up eyes up wise up: Exploring techniques to debias decision making and resist fake news (Defended Spring 2020)

Debra O’Connell – The association between the triarchic model of psychopathy and executive functioning (Defended Spring 2018)

Kayela Robertson – Naturalistic assessment using a simulated environment: Cognitive correlates and relationship to functional status in those with neurological conditions (Defended Fall 2016)

Angela Henricks – Sex-differences in endocannabinoid regulation of alcohol withdrawal (Defended Summer 2016)

Master’s Thesis Chair

Amanda Stueber – Elucidating the nature of the links between cannabis use and attention-deficit/hyperactivity disorder. (Defended Spring 2021)

Grace Shinn – Overexpression of Oprk1 gene expression and alcohol use disorder (Defended Spring 2020)

Master’s Thesis Co-Chair

Nicholas Glodosky – Chronic cannabis-induced alterations in stress reactivity (Defended Spring 2020)

Kyle Schofield – Resilience to discrimination in transgender health care (Defended Spring 2020)

Emily LaFrance – Inspired by Mary Jane? Mechanisms underlying enhanced creativity in cannabis users (Defended Fall 2017)

Dakota Mauzay – Devils, witches, and psychics: An examination of the relationships between religion, paranormal beliefs, and features of obsessive-compulsive disorder (Defended Spring 2017)

Master’s Thesis Committee Member

Brook Beech – Real-world compensatory strategy use in community-dwelling older adults

Makita White – Examining pro-active help-seeking behaviors in first generation college students (Defended Spring 2022)

Sean Noudali – The effect of chronic cannabis use on cross-modal emotion recognition (Defended Spring 2021)

Trevor Levingston – Validation of the Cannabis Simulated Intoxication Digital Elicitation (CanSIDE) for use in a stress induction paradigm (Defended Spring 2020)

Madeline Nagel – The face of a predator: Facial feature bias and psychopathic personality assessment in sex offender civil commitments (Defended Spring 2020)

Katelyn Brown – The impact of initial planning on task execution performance for older adults: A naturalistic assessment paradigm (Defended Spring 2019)

Nisha Raghunath – Precrastination and individual differences in working memory (Defended Spring 2019)

Lydia Baxter-Potter – Early life exposure to stress and cannabis effects on stress coping, drug seeking, and prefrontal cortical endocannabinoid signaling in adolescence (Defended Spring 2018)

Rachel Braley – Time estimation across the adult lifespan (Defended Summer 2017)

Arig Aboulenein – The identification and manipulation of choice representations (Defended Spring 2016)

Jenna Beaver – Effects of content and non-content memory on functional ability assessment of older adults (Defended Spring 2016)

Amy Nusbaum – The effects of stress on cognitive flexibility (Defended Fall 2016)

Christa Simon – The impact of cognitive reserve and subjective memory on compensatory strategy use in older adults (Defended Summer 2015)

Preliminary Exam Chair

Amanda Stueber – Experimental portfolio

Kyle Schofield – Clinical portfolio (Defended Spring 2021)

Emily LaFrance – Acute and chronic effects of cannabis on memory, decision-making, and ADHD (Defended Spring 2019)

Dakota Mauzay – Examinations of the links between OCD, religion, and cannabis use (Defended Fall 2018)

Preliminary Exam Co-Chair

Nicholas Glodosky – Experimental portfolio (Defended Spring 2021)

Preliminary Exam Committee Member

Brenna Boyd – Clinical portfolio (Defended Spring 2021)

Katelyn Brown – Clinical portfolio (Defended Spring 2020)

Debra O’Connell – Sadism and psychopathy (Defended Fall 2016)

Alex Spradlin – Individual differences in cannabis use (Defended Fall 2015)

Undergraduate Student Supervision

Honor’s Thesis Supervisor

Alexander Jensen – Effects of gender-identity labels on perceptions of gender minorities (Defended and Passed with Distinction Spring 2021)

Mia Ryckman – Don’t call me delusional: The effect of noun labels on stigmatizing attitudes and perceptions of people with psychological disorders (Defended and Passed with Distinction Spring 2017)

Valerie Sirois-Delisle – Diminished confidence in memory causes intrusive doubts and compulsions to check (Defended Spring 2012)

Honor’s Thesis Committee Member

Hannah Kimbel – Infant brain asymmetry and parent-child interactions (Defended Spring 2019)

Morgan Frank – The nation’s forgotten: Factors that lead to the misdiagnosis and mistreatment of mental disorders by healthcare professionals in America’s hospitals (Defended Spring 2016)

Training and supervision of over 65 additional undergraduate student research assistants.
